1 GDPR Compliance Statement

The Patrician Academy is aware of its responsibilities as a controller of personal data under GDPR. The school has been briefed as to its scope and implications for our school. All Patrician Academy employees who will be involved in processing personal information will be informed appropriately as to their duties with respect to GDPR in their day to day work.

As a school, we have always been committed to high standards of data protection, information security, privacy and transparency. The Patrician Academy respects the privacy of students, staff and visitors to the school and is committed to protecting their personal data.

We will safeguard the personal information under our remit and develop a robust data protection regime that is effective, fit for purpose and demonstrates an understanding of, and appreciation of the GDPR.

Our GDPR Principles:

- We will process all personal data fairly and lawfully;
- We will only process personal data for specified and lawful purposes;
- We will endeavour to hold relevant and accurate personal data, and where practical, we will keep this up to date;
- We will not retain personal data for longer than is necessary;
- We will keep all personal data secure;
- We will endeavour to ensure that personal data is not transferred to countries outside of the European Economic Area ('EEA') without adequate protection.;

The detailed arrangements for achieving these objectives are set out in the main body of this policy. The Principal together with the Board of Management has overall responsibility for data protection at the school.

This policy requires the co-operation of all staff, visitors, contractors and others to enable The Patrician Academy to discharge its responsibilities under the GDPR.

The Patrician Academy is committed to upholding the standards outlined in this policy. Sufficient authority and resources, both financial and otherwise, will be made available to enable the school to carry out their responsibilities under the GDPR. All employees will be made aware of and have access to this policy.

The Policy will be reviewed annually in light of experience and future developments within the organisation.

2 Scope

This policy states the commitment of The Patrician Academy to comply with the EU GDPR as a Data Controller and with other relevant legislation. It applies to the personally identifiable information of EU residents such as staff, students, job applicants, and third parties communicating with The Patrician Academy as Data Subjects under the purview of the GDPR.

It applies directly to functions of The Patrician Academy which collect or process personally identifiable information as part of normal operations. It also applies to external parties who act as Data Processors on behalf of The Patrician Academy.

3 Legal Obligations

In the addition to our obligations under GDPR, the implementation of this policy takes into account the school's other legal obligations and responsibilities in the Public Interest. Some of which are directly relevant to data protection:

- Under Section 9(g) of the Education Act, 1998, the parents of a student, or a student who has reached the age of 18 years, must be given access to records kept by the school relating to the progress of the student in their education;
- Under Section 20 of the Education (Welfare) Act, 2000, the school must maintain a register of all students attending the School;
- Under section 20(5) of the Education (Welfare) Act, 2000, a principal is obliged to notify certain information relating to the child's attendance in school and other matters relating to the child's educational progress to the principal of another school to which a student is transferring;
- Under Section 21 of the Education (Welfare) Act, 2000, the school must record the attendance or non-attendance of students registered at the school on each school day;
- Under Section 28 of the Education (Welfare) Act, 2000, the School may supply *Personal Data* kept by it to certain prescribed bodies (the Department of Education and Skills, the National Education Welfare Board, the National Council for Special Education, other schools, other centres of education) provided the School is satisfied that it will be used for a "relevant purpose" (which includes recording a person's educational or training history or monitoring their educational or training progress in order to ascertain how best they may be assisted in availing of educational or training opportunities or in developing their educational potential; or for carrying out research into examinations, participation in education and the general effectiveness of education or training);
- Under Section 14 of the Education for Persons with Special Educational Needs Act, 2004, the school is required to furnish to the National Council for Special Education (and its employees, which would include Special Educational Needs Organisers ("SENOs")) such information as the Council may from time to time reasonably request;
- The Freedom of Information Act 1997 provides a qualified right to access to information held by public bodies which does not necessarily have to be "personal data" as with data protection legislation. While schools are not currently subject to freedom of information legislation, if a school has furnished information to a body covered by the Freedom of Information Act (such as the Department of Education and Skills, etc.) these records could be disclosed if a request is made to that body;
- Under *Children First: National Guidance for the Protection and Welfare of Children* (2011) published by the Department of Children & Youth Affairs, schools, their boards of management and their staff have responsibilities to report child abuse or neglect to TUSLA - Child and Family Agency (or in the event of an emergency and the unavailability of TUSLA, to An Garda Síochána).

4 GDPR Principles

4.1 Principle 1: Lawfulness, fairness and transparency

The Patrician Academy believes in operating our school fairly and ethically and this will extend to all personal data held for those purposes. Subjects will be informed when data is being collected, and at the same time informed what we will use that data for. We will ensure that appropriate technical and organisational measures are in place to secure that data.

Collection and processing of data will be transparent. Advisory notices and privacy statements relating to data rights will be published as appropriate in plain English and will be structured where relevant to improve accessibility of this information to data subjects. Persons will be clearly advised of their rights also.

4.2 Principle 2: Purpose Limitation

Personal data collected by The Patrician Academy will be processed only for the purpose for which it was collected. In the event that this purpose should change, data subjects will be informed within the 30-day regulatory period and consent sought for the change.

4.3 Principle 3: Data Minimisation

The Patrician Academy will collect only the minimum quantity of personal data to carry out a particular task. Where appropriate, potential data subjects will be requested not to provide unwanted or inappropriately sensitive personal information.

4.4 Principle 4: Data Accuracy

The Patrician Academy will make every effort to ensure that subjects' information is accurate and up to date. The Patrician Academy will endeavour to ensure via appropriate levels of staff training that it is transcribed accurately. If it is not possible for subjects to correct their data personally, data can be corrected by contacting Reception.

4.5 Principle 5: Storage Limitation

The Patrician Academy will store and retain personal data only while there is a valid and lawful basis to do so. Personal information will be deleted when it is no longer required for the purposes for which it was collected.

Where systems do not allow deletion of all records relating to an individual, records will be anonymised by replacing personal information fields with substituted generic text.

4.6 Principle 6: Integrity & Confidentiality

Personal Data shall be processed securely i.e. in a manner that ensures appropriate security of the Personal Data, including protection against unauthorised or unlawful processing, accidental loss, destruction or damage. The Patrician Academy will use appropriate technical and organisational measures to ensure the integrity and confidentiality of personal data is maintained at all times.

- The source(s) of the Personal Data, if it was not obtained from the Data Subject;

A response to each request will be provided within 30 days of the receipt of the written request from the Data Subject.

Appropriate verification must confirm that the requestor is the Data Subject or their authorised legal representative. Data Subjects shall have the right to require The Patrician Academy to correct or supplement erroneous, misleading, outdated, or incomplete Personal Data.

If The Patrician Academy cannot respond fully to the request within 30 days, the Data Protection Officer shall nevertheless provide the following information to the Data Subject, or their authorised legal representative within the specified time:

- An acknowledgement of receipt of the request.
- Any information located to date.
- Details of any requested information or modifications which will not be provided to the Data Subject, the reason(s) for the refusal, and any procedures available for appealing the decision.

It should be noted that situations may arise where providing the information requested by a Data Subject would disclose Personal Data about another individual. In such cases, information must be redacted or withheld as may be necessary or appropriate to protect that person's rights.

6.10 Disposal of Personal Data

The Patrician Academy will conduct a regular review of the personal data they hold for the purpose of disposing of redundant personal data. It is recommended that such a review should take place on an annual basis. Such a review should involve the following steps:

- Identification of records (both electronic and paper) which contain personal data or sensitive personal data (see Data Map & Retention Policy in Section 6.6);
- Identification of the purpose(s) for which the data was originally obtained i.e. why did we collect the data (see Data Map & Retention Policy in Section 6.6);
- Appraisal of the records to determine if they contain personal data which is no longer necessary for the purposes for which it was originally obtained: This step will involve:
 - Consulting the Retention period as outlined in the Data Map & Retention Policy in Section 6.6.
 - Identifying the records for disposal.
 - Obtain permission from the Principal to dispose of the records.
 - Document the disposal of records.
- Suitable third-party service provider should be contacted to provide a secure erasure and destruction service.
- Consultation should also take place with the Principal for advice on record retention periods and to ensure that records are disposed of in a safe, secure and appropriate manner.

6.11 Security Breaches

- Where an incident gives rise to a risk of unauthorised disclosure, loss, destruction or alteration of personal data, in manual or electronic form, the data controller must give immediate consideration to informing those affected. Such information permits data subjects to consider the consequences for each of them individually and to take appropriate measures.
- In appropriate cases, data controllers should also notify organisations that may be in a position to assist in protecting data subjects including, where relevant, An Garda Síochána, Department of Education etc.
- If the data concerned is protected by technological measures such as to make it unintelligible to any person who is not authorised to access it, the data controller may conclude that there is no risk to the data and therefore no need to inform data subjects. Such a conclusion would only be justified where the technological measures (such as encryption) were of a high standard.
- All incidents of loss of control of personal data in manual or electronic form by a data processor must be reported to the relevant data controller as soon as the data processor becomes aware of the incident.
- All incidents in which personal data has been put at risk should be reported to the Office of the Data Protection Commissioner (DPC) as soon as the data controller becomes aware of the incident, except when the full extent and consequences of the incident has been reported without delay directly to the affected data subject(s) and it affects no more than 100 data subjects and it does not include sensitive personal data or personal data of a financial nature. If there is any doubt related to the adequacy of technological risk-mitigation measures - the data controller should report the incident to the DPC.
- Data controllers should make initial contact with the DPC within 72 Hours of becoming aware of the incident, outlining the circumstances surrounding the incident. This initial contact may be by email (preferably), telephone or fax and must not involve the communication of personal data. The DPC will make a determination regarding the need for a detailed report and/or subsequent investigation based on the nature of the incident and the presence or otherwise of appropriate physical or technological security measures to protect the data.
- Should the DPC request a data controller to provide a detailed written report of the incident, The Patrician Academy will specify a timeframe for the delivery of the report based on the nature of the incident and the information required. Such a report should reflect careful consideration of the following elements:
 - the amount and nature of the personal data that has been compromised;
 - the action being taken to secure and / or recover the personal data that has been compromised;
 - the action being taken to inform those affected by the incident or reasons for the decision not to do so;
 - the action being taken to limit damage or distress to those affected by the incident;
 - a chronology of the events leading up to the loss of control of the personal data;
 - and the measures being taken to prevent repetition of the incident.
- Depending on the nature of the incident, the DPC may investigate the circumstances surrounding the personal data security breach. Investigations may include on-site examination of systems and procedures and could lead to a recommendation to inform data subjects about a security breach incident where a data controller has not already done so. If necessary, the DPC may use his enforcement powers to compel appropriate action to protect the interests of data subjects.
- Even where there is no notification of the DPC, the data controller should keep a summary record of each incident which has given rise to a risk of unauthorised disclosure, loss, destruction or alteration of personal data. The record should include a brief description of the nature of the incident and an explanation of why the data controller did not consider it necessary to inform the DPC. Such records should be provided to the DPC upon request.
